DETAILED ACTION

1. The terminal disclaimer filed on July 31, 2007 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of the US. Patent No. 6,602,303 B1 has been reviewed and is accepted. The terminal disclaimer has been recorded.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims:

In claim 47, in line 1, after the word "Claim", replace "47" by --46--.

3. Claims 1-17 and 24-65 are allowed.

STATEMENT OF REASONS FOR ALLOWANCE

4. The following is an examiner's statement of reasons for allowance:

The obviousness rejection of the claims under 35 U.S.C. 103(a) as being unpatentable over Laurent et al. (US' 431 AI) in view of Cottard et al. (US' 514 A1) is rendered moot in view of the comparative data provided in the declaration filed on 6/12/2007, because the inventive composition (A) provides a significantly better viscosity (124.4 cps) and lesser selectivity ($\Delta E = 6.79$) (higher color quality) than the composition of the prior art that shows lesser viscosity (50 cps) and higher selectivity ($\Delta E = 10.36$) (poor color quality) (see the declaration tables II and

III). Accordingly, the claimed subject matter as a whole would not have been obvious to one having ordinary skill in the art of keratin fibers oxidation dyeing formulation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
